built-in home appliances

KITCHEN GOES WAY BEYOND JUST PREPARING FOOD..

Important Information

Products shown in the catalogue are subject to technical alterations, inaccuracies, printing mistakes and availability. This collection of products represents the international range from Achtecon and some products may not be available in some countries. Functions, features and accessories may also vary one country to another. Achtecon apologises for any inconvenience this may cause. No image and or drawings may not be copied, reproduced, disclosed, transferred, or reduced to any form, including electronic medium or machine-readable form, or transmitted or publicly performed by any means, electronic or otherwise, without the permission of Aktek Group.

Achtecon was established in 2014 to manufacture built-in hoods. In 2016, Achtecon moved to Merzi-fon Organized Industrial Zone and started mass production. Our company continues its production in its factory building with a 6000 m2 closed area. Achtecon is a 100% export oriented company and has exported to more than 30 countries.

Achtecon manufactures hoods as ODM and OEM. It offers fast and functional solutions to customer demands and suggestions with its experienced employees, modern machinery and quality policy. Achtecon products have passed all necessary safety and quality tests and the products have been certified by accredited organizations.

Since 2020, it has taken its first steps towards becoming an important actor in the built-in market with the marketing company Aktek Group.

Our goal is to create the best environment for you at home. Our hoods will preserve freshness, silence and harmony for your recipes in every corner of your kitchen saving money at the same time. Feel the peace and quietness in your kitchen too. Feel the satisfaction of sharing amazing moments there, with the pleasure of an amazing design and the essence of your home.

The hood is not just a noisy part of your kitchen, but something that keeps the atmosphere clean and fresh, creating harmony and a peaceful environment to cook or to share a piece of cake. Design is a priority with our hoods, that is why Achtecon creates exclusive and functional designs that goes along with the look of the rest of the appliances.

Achtecon Board of Directors

All sizes and special designs
suitable for all tastes and
needs are with you.

It's time to change the mood of your kitchen with touches that make a difference.

Extras	High Efficiency Motor Aluminium Body

A close-up, high-angle photograph of the control panel of a wall-mounted kitchen hood. The panel is dark grey or black with a brushed metal finish. Four circular touch-sensitive buttons are arranged in a horizontal line. Below the buttons, the brand name 'ACHTECON' is printed in a light, sans-serif font, preceded by a blue starburst logo. The hood's body is a light-colored metal with a fine perforated mesh on the front. The lighting is dramatic, highlighting the textures and metallic surfaces.
